

same number of turbopropeller powerplants must comply with the requirements of Part 25 of this chapter applicable to the airplane as type certificated with reciprocating engines, and with the following:

(1) The certification performance requirements prescribed in §§ 25.101 through 25.125 and 25.149, 25.1533, 25.1583, and 25.1587.

(2) The powerplant requirements of Part 25 of this chapter applicable to turbopropeller engine-powered airplanes.

(3) The requirements of Part 25 of this chapter for the standardization of cockpit controls and instruments, unless the Administrator finds that compliance with a particular detailed requirement would be impractical and would not contribute materially to standardization.

(4) Any other requirement of Part 25 of this chapter applicable to turbopropeller engine-powered airplanes that the Administrator finds to be related to the changes in engines and that are necessary to ensure a level of safety equal to that of the airplane certificated with reciprocating engines.

For each new limitation established with respect to weight, speed, or altitude that is significantly altered from those approved for the airplane with reciprocating engines, the applicant must show compliance with the requirements of Part 25 of this chapter applicable to the limitations being changed.
